

I Thought I Had No Voice (Scott Murray)

We've had gid times thegither,
We've shred a sang or twa
In warm days o simmer
An' winter's days o snaw
We ken that life's no easy,
The road is hard and lang
But music aye can cheer us,
We're better for a sang

CHORUS

I thought I had no voice,
Now listen to my song
The fellowship of music,
A place where I belong
We raise our voice in song,
In every verse and chorus
Many songs behind us now,
There's many waiting for us

Our time is nearly over,
These days are nearly done
The tunes we will remember,
The songs will still be sung
I hope the sun shines for you,
And that we'll meet again
For there's a bond between us,
A bond that has no end

Chorus

We raise our voice in song,
In every verse and chorus
Many songs behind us now,
There's many waiting for us
